

Yi-Ming Hu

Curriculum Vitae

Education

- 2011–2015 **Ph.D. in Physics and Astronomy**, *The University of Glasgow*, UK.
2007–2011 **Bachelor of Science in Astronomy**, *Nanjing University*, China.

Work experience

- 2017–Present **Associate Professor**, *School of Physics and Astronomy, Sun Yat-sen University*, China.
2015–2017 **Postdoc**, *Research Institute of Information Technology, Tsinghua University*, China.
2015–2016 **Junior Scientist/Postdoc**, *The Max Planck Institute for Gravitational Physics (Albert Einstein Institute)*, Germany.

Research interests

- TianQin My primary research interest is to explore the astronomy and fundamental physics that could be achieved through the construction of TianQin, a proposed space-based gravitational wave detector. My current affiliation is TianQin research center for gravitational physics.
- GW astronomy As an astronomer deep down, I'm studying all possible gravitational wave sources for space-based GW missions, ranging from Galactic compact binaries, stellar mass compact binary inspirals, extreme mass-ratio inspirals, massive black hole binary mergers, as well as stochastic gravitational wave background.
- Data Analysis I'm a Bayesianism, and my previous experience in LIGO equipped me with knowledge to perform GW data analysis related to space-based GW missions. I plan to construct data analysis pipelines for all sorts of potential sources to TianQin, to detect signals out of noise, and to measure parameters upon detected events.

Awards, Honors and Grants

- 2020 TianHe star prize for excellent supercomputer application, rewarded by the TianHe supercomputer (rank 6th fastest supercomputer) to the work on Fan et al. PRD 102 063016

- 2019 Guangdong Major Project of Basic and Applied Basic Research (co-I, responsible for 10M RMB), Contract No. 2019B030302001
- 2019 Member of Guangdong Association of Young scientists
- 2019 New star award for teaching, SYSU
- 2017- Serve as referee for journals like Astron. J., Res. Astron. Astrophys., Acta. Phys. Sin.
- 2017 NSFC, Grant No. 11703098
- 2017 Physics World Breakthrough of the Year (shared with 1,000+ collaborators)
- 2017 Science Breakthrough of the Year (shared with 1,000+ collaborators)
- 2017 Princess of Asturias Award for Technical and Scientific Research (shared with 1,000+ collaborators)
- 2017 Bruno Rossi Prize awarded by the High Energy Astrophysics Division of the American Astronomical Society (shared with 1,000+ collaborators)
- 2017 UK Royal Astronomical Society Group Achievement Award in Astronomy (shared with 1,000+ collaborators)
- 2017 Special Breakthrough Prize in Fundamental Physics (shared with 1,000+ collaborators)
- 2016 Physics World Breakthrough of the Year (shared with 1,000+ collaborators)
- 2016 Gruber Prize in Cosmology (shared with 1,000+ collaborators)
- 2016 The Intellectual's writers of 2016 (for outreach article related to gravitational wave)
- 2013 Principal's Early Career Mobility Fund
- 2011 China Scholarship Council Scholarship
- 2010 National Aspiration Scholarship
